

Proposed Changes in draft bidding documents for the procurement of slop based power:

Based on the comments/suggestions received from prospective bidders the following changes are considered by UPPCL in the draft bidding documents:

1) Clause 3.4.2

“b) Fuel:

- i) *The Bidder shall submit a duly notarized sworn affidavit to the effect that the fuel used in the Project would only be Slop, with maximum 10% bagasse allowed in the mix. No other Biomass/fossil fuel shall be used by it for supply of power under the Contracted Capacity.*”

Now the above clause shall be read as follows:

“b) Fuel:

- i) *The Bidder shall submit a duly notarized sworn affidavit to the effect that the fuel used in the Project would only be Slop, with maximum 40% bagasse allowed in the mix. No other Biomass/fossil fuel shall be used by it for supply of power under the Contracted Capacity.*”

2) Clause 1.2.5

S.No	Scope	Details
...
8	Scheduled Delivery Date	<i>From the date of approval by UPERC of executed PPA for already commissioned projects and by 31.3.2021 for under construction Projects</i>
...

Now the above clause shall be read as follows:

S.No	Scope	Details
...
8	Scheduled Delivery Date	<ol style="list-style-type: none"> 1. 12 months from date of approval of PPA by UPERC for new projects 2. by 31.3.2021 for under construction Projects. 3. From the date of approval by UPERC of executed PPA for already commissioned projects 4. <i>In case of the bidders already injecting power to the grid in compliance with UPERC order dated 02.12.2019 of Petition No. 1503 & 1504 of 2019 shall be the actual date of injection.</i>
...

3) Clause 3.6

"e) For MoD purpose, the tariff shall be bifurcated into fixed charge and variable charge in 50:50 ratio."

Now the above clause shall be read as:

*"e) For **Merit Order Dispatch** purpose, the tariff shall be bifurcated into fixed charge and variable charge in 50:50 ratio."*
