SCHEDULE 6: ESCALATION INDEX

- 6.1.1 The index ("Escalation Index") to be applied for escalation of Quoted Escalable Capacity Charges, Quoted Escalable Energy Charges and Quoted Escalable Inland Transportation Charges shall be computed by assuming that as on the date of the Bid Deadline (for Quoted Escalable Energy Charges and Quoted Escalable Inland Transportation Charges) and Scheduled Delivery Date (for Quoted Escalable Capacity Charges) or Revised Scheduled Delivery Date, as the case may be, the value of such Escalation Index is 100. Thereafter for each Month after the Bid Deadline (for Quoted Escalable Energy Charges, Quoted Escalable Inland Transportation Charges) and Scheduled Delivery Date (for Quoted Escalable Capacity Charges) or Revised Scheduled Delivery Date, as the case may be, the value of the Escalation Index shall be computed by applying the per annum inflation rate specified by CERC for payment of Escalable (or indexed) Capacity Charge and Escalable Energy Charge, as per the provisions of this Agreement.
- 6.1.2 For the avoidance of doubt, it is clarified that if the prevailing inflation rate for Quoted Escalable Energy Charges specified by CERC is 4.7% per annum, then at the end of the first Month after the Bid Deadline, the value of the Escalation Index shall be 100.3917 [i.e. $100 * (1 + 0.047/12)$]. The value of the Escalation Index at the end of the Nth Month after the Bid Deadline shall be calculated as: $100 * (1 + N*0.047/ 12)$ for Quoted Escalable Energy Charges.. The value of the inflation rate shall be modified as and when specified by the CERC and the base value (100 in this case) shall be modified at the beginning of each Contract Year to be the Escalation Index at the end of the previous Contract Year. The value of the Escalation Index shall be calculated up to the fourth decimal point.
- 6.1.3 The different per annum escalation rates will be specified by CERC for the following, which shall be revised only at the end of every six months:
- Quoted Escalable Capacity Charges;
 - Quoted Escalable Energy Charges separately for captive-coal based, linkage based coal, imported coal, domestic (pipeline) gas and imported R-LNG; and
 - Quoted Escalable Inland Transportation Charges (except for hydro plants);
- 6.1.4 In case due to any reason, CERC discontinues the publication of any of the inflation rate(s) mentioned above, the Procurers and the Seller shall replace the above inflation rate(s) with inflation rate(s) which shall be computed on the same basis as was being used by CERC to estimate their notified inflation rate.
