The Deemed Performance Security shall be unconditional and irrevocable, and shall constitute the first and exclusive charge on all amounts due and payable by the Procurer to the Supplier, and the Procurer shall be entitled to enforce the Deemed Performance Security by making a deduction from the amounts due and payable by it to the Supplier in accordance with the provisions of Clause 9.5. For the avoidance of doubt, the Parties agree that no amounts shall be earmarked, frozen or withheld in the Escrow Account for securing payment of any potential Damages that may fall due at a subsequent date, and only the amounts which shall have become due and payable by the Supplier upon occurrence of Supplier Default shall be liable to appropriation hereunder.

### 9.5 Appropriation of Deemed Performance Security

Upon occurrence of a Supplier Default, the Procurer shall, without prejudice to its other rights and remedies hereunder or in law, be entitled to appropriate the relevant amounts from the Deemed Performance Security as Damages for such Supplier Default. For the avoidance of doubt, the Parties expressly agree that upon the Deemed Performance Security being appropriated, in whole or in part, it shall be deemed to be replenished to the extent of such appropriation.

### 9.6 References to Performance Security

References to Performance Security occurring in this Agreement for and in respect of any period prior to the delivery of the Performance Security by the Supplier to the Procurer, or in respect of any period subsequent to the expiry or release thereof, as the case may be, shall be construed solely for the purposes of calculating the amount of Damages payable by the Supplier, and the amount so determined shall be appropriated from the Bid Security or Deemed Performance Security, as the case may be.

## TARIFF

## 11.1 Tariff

- 11.1.1 The Procurer shall pay to the Supplier tariff comprising the sum of Fixed Charge and Variable Charge payable by the Procurer to the Supplier for Supply and for supply of electricity, as the case may be, in accordance with the provisions of this Agreement (the "Tariff").
- 11.1.2 As a part of the Tariff, the Procurer shall pay to the Supplier an amount, determined in accordance with the provisions of this Article 11, as the Fixed Charge for supply of a kWh of electricity to the Procurer and expressed in Rupees per kWh (the "Fixed Charge").

## 11.2 Base Fixed Charge

The Parties agree that the fixed charge shall, in accordance with the offer of the Supplier for the Base Year, be Rs 2.3000 per kWh (Rupees Two and Thirty Paise), to which the amount, if any, determined in accordance with the provisions of Clauses 11.2 or 11.3, as the case may be, shall be added or deducted, as the case may be, and the sum thereof (the "Initial Fixed Charge") shall be revised annually in accordance with the provisions of Clause 11.4 to determine the base fixed charge for the relevant Accounting Year (the "Base Fixed Charge").

The Initial Fixed Charge shall be deemed to be the Base Fixed Charge for the Accounting Year in which COD occurs, and for each subsequent Accounting Year, the applicable Base Fixed Charge shall be determined by decreasing the Base Fixed Charge for the immediately preceding Accounting Year by [2% (two per cent)] thereof. For the avoidance of doubt and by way of illustration, the Base Fixed Charge for the first Accounting Year in which COD occurs shall be the Initial Fixed Charge, and for the second and third Accounting Years subsequent to the Accounting Year in which COD occurs, shall be a sum equal to [98% (ninety eight per cent) and 96.04% (ninety six point zero four per cent)] respectively of the Initial Fixed Charge.

## 11.3 Indexed Fixed Charge

For determining the Fixed Charge due and payable to the Supplier, the Base Fixed Charge shall be revised annually to reflect 20% (twenty per cent) of the variation in WPI occurring between January 31 immediately preceding the Bid Date and January 31 immediately preceding the Accounting Year for which such revision is undertaken. For the avoidance of doubt and by way of illustration, if (a) the Bid Date occurs in March 2015; (b) the appointed date occurs in May 2019; and (c) WPI increases by 20% (twenty per cent) between January 31, 2015 and January 31, 2019, the Fixed Charge for the Accounting Year commencing from April 1, 2019 shall be 104% (one hundred and four per cent) of the Base Fixed Charge.

#### 11.4 Computation of Fixed Charge

- 11.4.1 Subject to the provisions of this Clause 11.4, the Base Fixed Charge, as corrected for variation in WPI Index in accordance with Clause 11.3 shall be the Fixed Charge payable for scheduled energy in each month of the relevant Accounting Year.
- 11.4.2 The obligations of the Procurer to pay Fixed Charges in any Accounting Year, pertaining to the Contract Period, shall in no case exceed an amount equal to the Fixed Charge due and payable for and in respect of the scheduled energy in each month computed with reference to the Capacity (the "**Capacity Charge**"). Provided, however, that in the event of Despatch of the Power Station beyond Contracted Supply an Incentive shall be payable in accordance with the provisions of Clause 11.6.1
- 11.4.3 Pursuant to the provisions of Clause 11.4.4, the Supplier shall not, for and in respect of any day, be entitled to receive payment of Fixed Charge for scheduled energy in excess of Contracted Capacity, and in the event it supplies electricity to the Procurer in excess of such Contracted Capacity, such excess supply shall be eligible only for payment of Variable Charge (i.e. generating cost of electricity, transmission charges and transmission losses), save and except the payment of Incentive due under the provisions of Clause 11.4.2.
- 11.4.4 In the event that any shortfall in Supply of Electricity to the Procurer occurs on account of deficiency in transmission between the Point of Grid Connection and Delivery Point, Supply shall be deemed to be reduced in accordance with the provisions of Clause 11.5.2 and the Non-Supply arising as a consequence thereof shall, for the purposes of penalty of Fixed Charge, be deemed to be Supply to the extent of 50% (fifty per cent) of the Non-Supply hereunder. Provided, however, that the Supplier may, in its sole discretion, Despatch the Power Station to the extent of full or part Non-Supply hereunder for supply to other Buyers, and to the extent of full or part Non-Supply hereunder for supply to other Buyers, and to the extent of such Despatch, the Procurer shall not be liable to penalty on any Fixed Charge due and payable in accordance with the provisions of this Clause 11.4.4. For the avoidance of doubt, the Parties expressly agree that if such deficiency in transmission is caused by an action or omission attributable to the Supplier, it shall not be reckoned for the purposes of computing Supply hereunder. The Parties further agree that any and all revenues received from Buyers shall be applied first towards reduction of Fixed Charge payable by the Procurer hereunder and only the balance remaining shall be appropriated by the Supplier.
- 11.4.5 In the event that any shortfall in supply of electricity to the Procurer occurs on account of shortage of availability of water, Supply shall be deemed to be reduced in accordance with the provisions of Clause 11.5.3. Provided, however, that the Non-Supply arising as a consequence of shortage of availability of water during procurers defined peak hours caused by any event of Force Majure shall, for the purpose of payment on Fixed Charge, be deemed to be availability to the extent of 30% (thirty per cent) of the Non-Supply hereunder.

- 11.5.2 In the event that any shortfall in supply of electricity to the Procurer occurs on account of any deficiency in transmission between the Point of Grid Connection and Delivery Point, the Supply shall be deemed to be reduced to the extent of reduction in transmission of electricity, and the reduction referred to hereinabove shall be deemed as Non-Supply on account of deficiency in transmission. For the avoidance of doubt and by way of illustration, the Parties agree that if such deficiency in transmission is equal to 20% (twenty per cent) of the Contracted Capacity, the Supply shall be deemed to be 80% (eighty per cent) and the Non-Supply hereunder shall be notified by the Supplier to the Procurer forthwith.
- 11.5.3 In the event that any shortfall in supply of electricity to the Procurer occurs on account of shortage of availability of water, the Supply shall be deemed to be reduced to the extent of reduction in generation of electricity, and such reduction shall be deemed as Non-Supply on account of shortage of availability of water. For the avoidance of doubt and by way of illustration, the Parties agree that if the deficiency in generation is equal to 20% (twenty per cent) of the Contracted Capacity, the Supply shall be deemed to be 80% (eighty per cent) and the Non-Supply hereunder shall be notified by the Supplier to the Procurer forthwith.
- 11.5.4 The Supplier shall notify, no later than 15 (fifteen) days prior to the commencement of a month, maintenance schedule for that month and any reduction in Supply arising as a result thereof. The Supplier shall, as soon as may be, notify any modifications of maintenance schedule and shall confirm, with or without modifications, the reduction in Supply no later than 48 (forty-eight) hours prior to its occurrence.
- 11.5.5 In the event that the Supply at any time is determined to be lower than 100% (one hundred per cent) of the Contracted Capacity or the reduced Supply notified hereunder, an event of mis-declaration of Supply (the "Mis-declaration") shall be deemed to have occurred. In such an event, the Supply for the relevant month shall, for the purposes of penalty on Fixed Charge, be deemed to be reduced by the same proportion that Supply bears to Mis-declaration, as if the Mis-declaration had occurred for a period of one month. claim of the Procurer, the same shall be settled in accordance with the Dispute Resolution Procedure. For the avoidance of doubt, it is agreed that this Clause 21.2 shall be restricted to changes in law directly affecting the Supplier's costs of performing its obligations under this Agreement.

### 21.3 Protection of NPV

Pursuant to the provisions of Clauses 21.1 and 21.2 and for the purposes of placing the Supplier in the same financial position as it would have enjoyed had there been no Change in Law affecting the costs, returns or other financial burden or gains, the Parties shall endeavour to establish a net present value (the "NPV") of the net cash flow and make necessary adjustments in costs, revenues, compensation or other relevant parameters, as the case may be, to procure that the NPV of the net cash flow is the same as it would have been if no Change in Law had occurred. For the avoidance of doubt, the Parties expressly agree that for determination of NPV, the discount rate to be used shall be equal to the weighted average rate of interest at which the Supplier has raised the Debt Due under its Financing Agreements.

### 21.4 Restriction on cash compensation

The Parties acknowledge and agree that the demand for cash compensation under this Article 21 shall be restricted to the effect of Change in Law during the respective Accounting Year and shall be made at any time after commencement of such year, but no later than one year from the close of such Accounting Year. Any demand for cash compensation payable for and in respect of any subsequent Accounting Year shall be made after the commencement of the Accounting Year to which the demand pertains, but no later than 2 (two) years from the close of such Accounting Year.

### 21.5 No claim in the event of recovery from Buyers

Notwithstanding anything to the contrary contained in this Agreement, the Procurer shall not in any manner be liable to reimburse to the Supplier any sums on account of a Change in Law if the same are recoverable from the Buyers.

#### 22.1 General indemnity

35.1.1 The Supplier shall indemnify, defend, save and hold harmless the Procurer and its officers, servants, agents, Government Instrumentalities and Procurer owned and/or controlled entities/enterprises, (the “**Procurer Indemnified Persons**”) against any and all suits, proceedings, actions, demands and claims from third parties for any loss, damage, cost and expense of whatever kind and nature, whether arising out of any breach by the Supplier of any of its obligations under this Agreement or any related agreement or on account of any defect or deficiency in the provision of services to the Procurer or sale by the Supplier to any Buyer or from any negligence of the Supplier under contract or tort or on any other ground whatsoever, except to the extent that any such suits, proceedings, actions, demands and claims have arisen due to any negligent act or omission, or breach or default of this Agreement on the part of the Procurer Indemnified Persons.

22.1.2 The Procurer shall indemnify, defend, save and hold harmless the Supplier against any and all suits, proceedings, actions, demands and claims from third parties for any loss, damage, cost and expense of whatever kind and nature arising out of breach by the Procurer of any of its obligations under this Agreement or any related agreement, which materially and adversely affect the performance by the Supplier of its obligations under this Agreement, save and except that where any such claim, suit, proceeding, action, and/or demand has arisen due to a negligent act or omission, or breach of any of its obligations under any provision of this Agreement or any related agreement and/or breach of its statutory duty on the part of the Supplier, its subsidiaries, contractors, servants or agents, the same shall be the liability of the Supplier.

22.2.2 Without limiting the generality of the provisions of this Article 22, the Supplier shall fully indemnify, hold harmless and defend the Procurer Indemnified Persons from and against any and all suits, proceedings, actions, claims, demands, liabilities and damages which the Procurer Indemnified Persons may hereafter suffer, or pay by reason of any demands, claims, suits or proceedings arising out of claims of infringement of any domestic or foreign patent rights, copyrights or other intellectual property, proprietary or confidentiality rights with respect to any materials, information, design or process used by the Supplier or by the Supplier's Contractors in performing the Supplier's obligations or in any way incorporated in or related to the Project. If in any such suit, action, claim or proceedings, a temporary restraint order or preliminary injunction is granted, the Supplier shall make every reasonable effort, by giving a satisfactory bond or otherwise, to secure the revocation or suspension of the injunction or restraint order. If, in any such suit, action, claim or proceedings, the Power Station(s), or any part thereof or comprised therein, is held to constitute an infringement and its use is permanently enjoined, the Supplier shall promptly make every reasonable effort to secure for the Procurer a licence, at no cost to the Procurer, authorising continued use of the infringing work. If the Supplier is unable to secure such licence within a reasonable time, the Supplier shall, at its own expense, and without impairing the Specifications and Standards, either replace the affected work, or part, or process thereof with non-infringing work or part or process, or modify the same so that it becomes non-infringing.

### 22.3 Notice and contest of claims

In the event that either Party receives a claim or demand from a third party in respect of which it is entitled to the benefit of an indemnity under this Article 22 (the "Indemnified Party") it shall notify the other Party (the "Indemnifying Party") within 15 (fifteen) days of receipt of the claim or demand and shall not settle or pay the claim without the prior approval of the Indemnifying Party, which approval shall not be unreasonably withheld or delayed. In the event that the Indemnifying Party wishes to contest or dispute the claim or demand, it may conduct the proceedings in the name of the Indemnified Party, subject to the Indemnified Party being secured against any costs involved, to its reasonable satisfaction.

### 22.4 Defence of claims

22.4.1 The Indemnified Party shall have the right, but not the obligation, to contest, defend and litigate any claim, action, suit or proceeding by any third party alleged or asserted against such Party in respect of, resulting from, related to or arising out of any matter for which it is entitled to be indemnified hereunder, and reasonable costs and expenses thereof shall be indemnified by the Indemnifying Party. If the Indemnifying Party acknowledges in writing its obligation to indemnify the Indemnified Party in respect of loss to the full extent provided by this Article 22, the Indemnifying Party shall be entitled, at its option, to assume and control the defence of such claim, action, suit or proceeding, liabilities,

The Indemnifying Party shall not be entitled to settle or compromise any claim, demand, action, suit or proceeding without the prior written consent of the Indemnified Party, unless the Indemnifying Party provides such security to the Indemnified Party as shall be reasonably required by the Indemnified Party to secure the loss to be indemnified hereunder to the extent so compromised or settled.

- (d) the Indemnified Party shall have reasonably concluded and specifically notified the Indemnifying Party either:

### DISPUTE RESOLUTION

#### 23.1 Dispute resolution

23.1.1 Any dispute, difference or controversy of whatever nature howsoever arising under or out of or in relation to this Agreement (including its interpretation) between the Parties, and so notified in writing by either Party to the other Party (the "Dispute") shall, in the first instance, be attempted to be resolved amicably in accordance with the conciliation procedure set forth in Clause 23.2.

23.1.2 The Parties agree to use their best efforts for resolving all Disputes arising under or in respect of this Agreement promptly, equitably and in good faith, and further agree to provide each other with reasonable access during normal business hours to all non-privileged records, information and data pertaining to any Dispute.

#### 23.2 Conciliation

In the event of any Dispute between the Parties, either Party may require such Dispute to be referred to the Managing Director of the Procurer Chairman of the Board of Directors of the Supplier for amicable settlement, and upon such reference, the said persons shall meet no later than 7 (seven) days from the date of reference to discuss and attempt to amicably resolve the Dispute. If such meeting does not take place within the 7 (seven) day period or the Dispute is not amicably settled within 15 (fifteen) days of the meeting or the Dispute is not resolved as evidenced by the signing of written terms of settlement within 30 (thirty) days of the notice in writing referred to in Clause 23.1.1 or such longer period as may be mutually agreed by the Parties, either Party may refer the Dispute to arbitration in accordance with the provisions of Clause 23.3.

#### 23.3 Arbitration

23.3.1 Any Dispute which is not resolved amicably by conciliation, as provided in Clause 23.2, and is not required under Applicable Laws to be adjudicated or referred to arbitration by the Commission, shall be finally decided by reference to arbitration by an arbitral tribunal constituted in accordance with Clause 23.3.2. Such arbitration shall be held in accordance with the Rules of Arbitration of the International Centre for Alternative Dispute Resolution, New Delhi (the "Rules"), or such other rules as may be mutually agreed by the Parties, and shall be subject to the provisions of the Arbitration and Conciliation Act, 1996. The place of such arbitration shall be the capital of the State and the language of arbitration proceedings shall be English.

23.3.2 There shall be an arbitral tribunal comprising three arbitrators, of whom each Party shall select one, and the third arbitrator shall be appointed by the two arbitrators so selected, and in the event of disagreement between the two arbitrators, the appointment shall be made in accordance with the Rules.

23.3.3 The arbitral tribunal shall make a reasoned award (the "Award"). Any Award made in any arbitration held pursuant to this Article 23 shall be final and binding on the Parties as from the date it is made, and the Supplier and the Procurer agree and undertake to carry out such Award without delay.

23.3.4 The Supplier and the Procurer agree that an Award may be enforced against the Supplier and/or the Procurer, as the case may be, and their respective assets wherever situated.

23.3.5 This Agreement and the rights and obligations of the Parties shall remain in full force and effect, pending the Award in any arbitration proceedings hereunder.

#### 23.4 Adjudication by the Commission

23.4.1 In the event a Dispute is required under Applicable Laws to be adjudicated upon by the Commission, such Dispute shall, instead of reference to arbitration under Clause 23.3, be submitted for adjudication by the Commission in accordance with Applicable Laws and all references to Dispute Resolution Procedure shall be construed accordingly. For the avoidance of doubt, the Parties hereto agree that the adjudication hereunder shall not be final and binding until an appeal, if any, against such adjudication has been decided by the appellate tribunal, or no such appeal has been preferred within the time specified in the Applicable Law.

23.4.2 Where any dispute is referred by the Commission to be settled through arbitration, the procedure specified in Clause 23.3 shall be followed to the extent applicable.

#### 23.5 Adjudication by a tribunal

In the event of constitution of a statutory tribunal with powers to adjudicate upon disputes between the Supplier and the Procurer, all Disputes arising after such constitution shall, instead of reference to arbitration or adjudication under Clauses 23.3 and 23.4 respectively, be adjudicated upon by such tribunal in accordance with Applicable Laws and all references to Dispute Resolution Procedure shall be construed accordingly.

## Description of Hydro-based Power Station

### 1 The site

The Site of the Hydro-electric Power station shall include the land, building and structures comprising a Dam/Barrage, HRT, Penstocks/Pressure Shaft, Power House (Underground/Surface/Semi surface) & TRT. The Power Station may be based on Storage/Run off River.

### 2 Capacity of the Hydro Power Station

2.1 The Hydro Power Station has a generating capacity of 1200 MW.

2.2 The configuration of Units is given below:

(a) The number of Units is 6

(b) The nameplate capacity of each Unit is 200 MW.

### 3 Head

Maximum net head available for power generation is 786 m, which is the maximum gross head less all the losses in the water conductor system including penstock.

Minimum net head results from the difference in elevation between the minimum head water level (MDDL) and the maximum tailrace water level (TWL0, minus losses with all turbines operating at full gate opening.
